August 2019 – April 2021

Decrease recurring calls for the common issue by 56% in 4 months, while analyzing the source of the issue. Working directly with engineers, and customers in finding the best solution. Increased speed of call handling by 36%

- Identify common issues, isolate problems and create resolution plans with teams across Europe
- Mentored new team members and onboarded them by providing additional knowledge and necessary resources.

Projects

Markdown Blog

Next.js, CSS modules (SCSS), Markdown

Design and develop clean and maintainable code for minimal, typography focused blog template made with Next.js and Markdown. Perfect Lighthouse score with support for multiple languages and themes.

Cat Wiki

Next.js, CSS modules (SCSS), Rest API

This project implements Rest API to display different pieces of information about the cat breed. The index page is static while pages about cat breed are Server-side rendered with the `getServerSideProps` function.
